Astronomy in America. By Richard A. Proctor 351

On the Progress of Aeronautics. By Fred. W. Brearey ... 364

The Parallel Roads of Glen Roy. By Professor Tyndall, D.C.L. Illustrated 375

What is the Meaning of Human Personality? By H. J. Slack, F.G.S.... 389

The Vivisection Clamour. By the Editor 398

Reviews of Books 84, 185, 299, 406

Scientific Summary:—

Astronomy 98, 202, 315, 420
Botany and Vegetable Physiology 101, 205, 319, 423
Chemistry 103, 209, 322, 425
Geography 325
Geology and Palæontology 104, 211, 326, 427
Mechanics 106
Medical Science 107, 213, 328, 430
Metallurgy, Mineralogy and Mining 108, 216, 329, 431
Meteorology 109, 330
Microscopy 110, 216, 331, 433
Physics 111, 218, 332. 434
Zoology and Comparative Anatomy 112, 221, 335, 435
